

Watson Suspension Systems

TI250L/TI250T Load Chart		
Desired Axle Weight @ Ground (lbs)	TI250L PSI REQUIRED	TI250T PSI REQUIRED
5000	14	13
10000	34	32
15000	55	51
17500	65	60
20000	75	69
22500	85	79
25000	95	88
Literature # W&C233		
REV 06/20/2017		

The values above are based on the standard units mounted at the designed run height. These values are approximations and will vary, especially if used at a different mounting height than for which the suspension was designed.

These weights are based on the axle, wheel equipment (duals), and tires (duals) weighing 1700 lbs., which also varies.
