## TRAILER AXLES

Watson & Chalin offers a full line of trailer axles which compliment our full line of trailer suspensions such as the TA, Single Point and mechanical families. Our trailer axles are manufactured with industry standard components to ensure you are spec'ing a low maintenance product. Available in straight or bent tube with many different configurations, capacities, track lengths and value-added features such as air disc brakes, tire pressure control systems and fully dressed wheel-ends. By combining the W&C trailer axles and suspensions, we are now able to supply the global market with a "One-Stop-Shop" for all your trailer suspension needs.

- Axle capacity up to 25,000 pounds
- Straight or bent tubes
- N or P Spindles
- Axle tracks: 71.5- and 77.5-inch standard
- Axle wall: 1/2-, 5/8- and 3/4-inch

**For more information, call 800.445.0736**

# TRAILER AXLES
